TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 10% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.
3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.
4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. NO credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
5. Minors are expressly forbidden to bid in this sale.
6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.
8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.
9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing, since NO LOT MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.
12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at a nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer, for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids, which he, in his sole discretion, feels are not made in good faith.
13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed at an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for the auction is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. **DON'T FORGET TO SIGN YOUR BID SHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

LOT	BID
18	150
168	300
252	2500
887	700
1027	2000

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #18 as \$150. If yours was the highest bid received, you would be the purchaser at \$150. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by APPOINTMENT ONLY, between the hours of 9:00 a.m. and 5:00 p.m. September 21 through October 13, 1992 only. Additionally, all material will be available for viewing at the Long Beach Convention Center.

Thursday, October 15, 1992	10:00 A.M. - 6:00 P.M.
Friday, October 16, 1992	10:00 A.M. - 6:00 P.M.
Saturday, October 17, 1992	10:00 A.M. - 5:00 P.M.

A 1696 PANAMA HOARD OF PERUVIAN 2 REALES COBS

By A. Torrey McLean

Somewhere in Spanish Panama, probably during 1696, more than 250 2-reales and 12 8-reales cobs were placed in an iron box. This box, containing a number of mint-fresh coins that represented the period of production of some of the finest Peruvian cobs ever struck for general circulation, was carefully hidden, probably in some structural wall or foundation. There, it was protected from the elements and remained undisturbed for almost 300 years before it was recently discovered. No details as to the specific location of the hoard or the circumstances of the discovery of the coins are known at present. In June, 1992, 267 of these coins, supposedly all but for a few of the entire hoard, were obtained by Louis D. Hudson, a prominent dealer in cob coins and my personal friend. Immediately recognizing the potential research value of the hoard, he promptly made the coins available to me for study.

As I examined and cataloged the coins, I realized that even though no major new or anticipated "finds" were evident, the hoard still presented a rare opportunity for numismatic analysis of a statistically significant number of cobs that were struck in Potosi and Lima and circulated in Panama during the reign of Charles II. Such a numismatic analysis in an historical and geographic context has seldom if ever been conducted with a land hoard of silver cob coins, and the fact that Panama was so strategically important to Spanish commerce to and from Peru made any analysis of the hoard all the more significant. In a general sense, it was the numismatic equivalent of an archaeological "time capsule" that represented a sample of the coins in use in Panama during the latter part of the 17th. Century. Consequently, I present the following information to any collectors or numismatic historians interested in Spanish colonial coinage:¹

THE ORIGIN OF THE COINS

The 2-reales coins were all cobs struck in both Peruvian mints, Potosi and Lima, during the period 1654-1696. Of this group of 255 cobs, 187 (73%), were struck in Potosi and 68 (27%) were struck in Lima. Many of the coins appeared to be uncirculated and none were holed, indicating that many had never been in general circulation either in Peru or Panama. Consequently, many if not all of the coins appear to have been shipped directly from Peru for use in the local commerce of Panama, and for some reason hidden rather than placed in circulation.

CONDITION

The terms "mint fresh" and "as struck" are subjective terms to cob collectors, but a large percentage of the coins appear to meet the strictest definition of the terms. Other than exhibited signs of storage, the coins appear to be in exactly the same condition as when they were taken from the mints. The older Potosi coins all show varying degrees of wear, but several struck during the 1680's and most struck during the 1690's appear to be absolutely uncirculated. None of the coins were holed, and other than rust stains and dark toning on a number of the cobs, the coins exhibit no adverse effects from having been cached for so long in a tropical climate.

QUALITY OF PRODUCTION

Of the entire group of 255 2-reales, 252 (99%) have legible dates. Moreover, an unexpectedly large number (124 or 49%) show more than one date. This efficiency of dating attests to the effectiveness of the "Pillars and Waves" design developed in Potosi in 1652. Every one of the 187 Potosi cobs show the critical data (date, mint, and assayer), but the data on the Lima coins, including those that were uncirculated, was much less evident. Of interest is the fact that 98 of the 187 Potosi cobs (52%) show more than one date while only 26 of the 68 Lima pieces (38%) do so. This lower standard of mint operations in Lima was already well known to cob collectors and is one of the reasons

that collectors have consistently shown more interest in Potosi cobs than in those struck in Lima. The reasons for the superior detail on Potosi cobs is open to speculation. Perhaps the most likely explanation is the possibility that the Lima mint struck cobs on planchets that were colder than the Potosi mint planchets, thus leaving more areas on Lima cobs "flat struck", in cob collecting terminology.

DISCOVERY OF "Ho" ASSAYER INITIALS ON 2-REALES LIMA COBS

For years, numismatists have known of an interesting variation of the assayer "H" initial used by an unknown assayer at the Lima mint during the period 1696-1710.2 This variation consisted of the assayer initial - normally "H" - being shown as "o" above "H" on the reverse (cross side) of 8-reales Lima cobs, perhaps because "H" wished to have a second letter of his name appear on coins struck from the silver he assayed. However, this "o" above "H" of the assayer marking had not previously been confirmed for any other denomination of 1696 Lima cobs, or on any cobs of other dates.

Mr. Hudson, when conducting a preliminary examination of the hoard, noted four 1696 2-reales cobs showing distinct "o" above "H" assayer markings to the right of the bar of the Cross of Jerusalem shown on the reverse of the coins, just as on the 1696 "o" above "H" 8-reales. When I carefully examined the individual coins in the hoard, I located four additional examples as well as two 1696 cobs that clearly were struck with an "H" assayer designation rather than the "o" above "H". The "o" above "H" assayer initials were not noted on Lima 2-reales cobs for any other year. Perhaps this "o" above "H" variety of assayers initials will be subsequently confirmed on 4-reales and 1-real 1696 Lima cobs, now that Mr. Hudson has discovered this variety on 2-reales cobs of 1696.

DATES AND OVERDATES

The 187 Potosi 2-reales span a period of 43 years - 1654 through 1696. A total of 33 of these dates were represented in the hoard, including each of the last 20 years. Only 2 1696 cobs were included. The 68 Lima coins only span a 12 year period, since the Lima mint had not reopened until 1684 and production had been less prolific than in Potosi. However, all but two dates - 1684 and 1688 - were represented in the hoard; both dates always have been difficult for date collectors of Lima cobs to obtain.

The diversity of Peruvian cob collecting has been enhanced by the fact that the Potosi mint sometimes used reengraved dies which produced overdates. Two Potosi coins in the hoard exhibited such overdates - a 1670 cob with clear "70/69" obverse and reverse dates and a 1671 cob with definite "71/70" obverse and reverse dates. Statistically these two examples of overdates are insignificant. However, when combined with data available from other sources, these coins may provide additional insight into the die work at the Potosi mint during the period.

CONCLUSIONS

After studying these 255 2-reales in a numismatic, historical, and geographic context, the following conclusions are evident:

1. Mint operations in Potosi were far superior to those in Lima, in regard to the striking of coins. This fact was already accepted by numismatic scholars and cob collectors, but was once again conclusively demonstrated by the comparison of uncirculated Potosi and Lima coins in the hoard. Every one of the 187 Potosi coins showed critical data (date, mint, and assayer), while 65 of the 68 Lima coins (96%) did so. Virtually all of the Lima cobs had flat, unstruck planchet areas, indicating use of either inferior dies or an inferior process of preparing planchets in the Lima mint.
2. It is quite probable that it took longer for cobs from Potosi to enter circulation in Panama than issues from Lima. This is indicated by the fact that only 2 1696 Potosi cobs were included in the hoard, while there were 14 Lima cobs of that date.

This observation is hardly surprising in view of the fact that Potosi is located high in the Andes and its silver had to be transported by pack animals down treacherous mountain trails. Lima, on the other hand, is located very near the Pacific coast and had its own port - Callao - available for immediate shipment of coins. If a more exact determination of the time that the coins were hoarded ever becomes available, this disparity between the numbers of 1696 Potosi and Lima cobs may provide additional insight into Spanish colonial trade and transportation.

3. Potosi produced the vast majority of the coins used in colonial Panama, even after the nearer and more accessible Lima mint resumed operation in 1684. This, too, is no great revelation to cob collectors, who have always found a disparity in the numbers of surviving coins from the two mints, and to scholars, who have examined Potosi and Lima production records. In fact, the Lima mint was reopened in 1684 primarily to produce coins for local circulation while the Potosi mint produced coins as rapidly as possible for most of the Spanish empire. At this point, it should be noted that the hoard further confirms the fact that virtually all of the coins circulating in and through Panama were struck in Potosi rather than in Mexico or Colombia.³ This observation, too, is what should be expected in view of the fact that Panama was the critical point of transshipment of silver from Peru to Spain.
4. Coins of the 2-reales denomination, along with 1-real and 1/2-real coins, were the predominant coins of local circulation in Spain's possessions in the New World, while 4-reales and 8-reales were the predominant coins of commerce. This observation is further supported by the facts that documentation of official complaints regarding the shortage of minor coins has been discovered by scholars; the Panama mint struck only minor denominations during its brief period of operation in 1580-1582;⁴ and that all salvages of Spanish treasure galleons have produced a disproportionate percentage of 4-reales and 8-reales coins to that of the lesser denominations.⁵
5. The Lima assayer who used the initial "H" to identify coins struck from the silver that he had assayed used the letters "o" above "H" on the reverse of 2-reales cobs (as well as 8-reales cobs) struck during part of 1696, the first year that he held office. Apparently when these dies wore out, the more conventional "H" initial was utilized for the remainder of his tenure as assayer.

The first four of these conclusions are nothing new or unexpected, but they nevertheless support conventional assumptions regarding mint operations in Peru, transportation of Peruvian silver to and through Panama, and use of Peruvian cobs in Panama. The final conclusion, however, should be of interest to numismatists since it may help identify the name of the assayer "H". Additionally, the confirmation of this subvariety of 2-reales Lima cobs may spur the subsequent discovery of "o" above "H" variations of 1-real and 4-reales coins. If this does in fact occur, an entirely new subtype of 1696 cobs will be sought by advanced collectors of Spanish colonial coins.

EPILOGUE

This 1696 Panama hoard of 2-reales cobs has now been dispersed. Some of the best specimens have been added to advanced cob collections, but, sadly, the vast majority of these historical coins have been sold to jewelers for mounting into the cob jewelry so popular with Caribbean tourists. Nevertheless, more information about the minting and circulation of Peruvian cobs struck during the reign of Charles II is now available because of the hoard of coins carefully hidden so long ago by some unknown Spanish subject in Panama.

NOTES AND BIBLIOGRAPHY

1. The 12 8-reales cobs in this hoard (10 struck in Potosi, 2 in Lima) are too few in number to be statistically important. Consequently they will be excluded from this analysis of the hoard.
2. Apparently the "o" above "H" variety of the 1696 8-reales was first identified by Mike Dunigan in 1990.
3. Louis D. Hudson, who through the years has examined more than 3,000 cobs recovered from Panama, has found only two non-Peruvian coins (a Colombian 8-reales cob struck in Cartegena ca. 1628 and a Mexican 8-reales cob, ca. 1622). Additionally, Sewell H. Menzel, an advanced collector of cobs and historian who resided in Panama for years, also examined numerous coins recovered from the area and never noted any non-Peruvian coins.
4. Sewell H. Menzel, "The Mystery Mint of Spanish Colonial Panama", The Numismatist, Vol. 103, No. 6 (June 1990).
5. These wrecks include the Atocha and Santa Margarita (1622), the Remidos (also known as the "Lucayan Beach Wreck", 1628), the Concepcion (1641), the Maravillas (1656), and the wrecks of the 1715 Plate Fleet.
